## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kato et al 6,316,101 and Fujimoto et al 6,284,370.

Both of the cited prior arts disclose polyester fibers and yarns made therefrom, comprising polyester made in the presence of Ti and P compounds as claimed. See column 6, lines 41-57; column 9, line 59 through column 10, line 67; and Example 1 in column 17 of the '101. See the abstract; column 3, lines 38-48; column 4, lines 17-19; column 5, lines 1-30, and column 6, line 18 of the '370.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP 2000-319370; EP 1,156,070; JP 2001-1278971; JP 2000-319370; JP 54-045397; and JP 54-043295.

All the cited prior arts disclose polyester compositions which are prepared in the presence of Ti and P compounds as claimed. The polyesters are used in making molded articles such as fibers. Patentees do not disclose fabrics as claimed; however, it is the Examiner's position that the intended use of the prior art fiber compositions to make fiber knitted or woven fabric from yarns comprising the fibers is well within the limit of skills of the ordinary practitioner and hence would have been obvious.

5. References listed on PTO-1449 have been made part of the record.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to SAMUEL A. ACQUAH whose telephone number is 571-272-1065. The examiner can normally be reached on M-TH, FRIDAYS OFF.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, JAMES SEIDLECK can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
